Federal Communications Commission
c/o Marlene Dortch, Secretary
445 12th Street, SW
Washington, D.C. 20554

Dear Chairman Genachowski:

On behalf of my constituents, I am pleased to write to you in support of providing Wisconsinites with more reliable wireless service. The proposed merger of AT&T and T-Mobile would greatly expand the availability of 4G LTE both within Wisconsin and nationwide, providing access to an estimated 55 million more Americans than current plans. This is especially important for rural communities and small towns like the ones I represent to remain competitive with the rest of the country.

In Wisconsin's 2nd Assembly District, we have countless assets that help us attract and retain companies, from our great schools to our excellent quality of life to our well-trained workforce. By approving the AT&T-T-Mobile merger, the FCC can help us further improve the technological assets that are so important in attracting high-tech jobs. I urge you to support the merger.

This merger will increase coverage options for all of our rural counties along the lakeshore, providing critical infrastructure for the future and ensuring our district's involvement in this digital age. Expanding 4G LTE will benefit personal and business networks. As a co-sponsor of Wisconsin's recent legislative efforts to reform and rethink Wisconsin's telecommunications policy, I believe this merger would serve as another step in the right direction.

This is an opportunity for economic growth by creating jobs and supporting education. We can't afford to miss out on these benefits, and we must invest in our future. It is for these reasons that I support this merger.

Sincerely,

André Jacque
State Representative
